Guide to This Book

This book contains the Program Book, New Research Program Book, and Exhibits Guide. Located within the Program Book you will find a topic index in addition to program tracks (color-coded) that will assist you in finding scientific sessions of interest. The individual program for each day of the meeting is also color-coded so that you can easily find the day(s) of the meeting that interest you. The program is listed by start time with the formats listed alphabetically under those times. To make it even easier to plan your day a separate Days-at-a-Glance has been included with your registration materials. The New Research Program Book lists the titles of the Posters that will be presented at this meeting, organized numerically by session/day. There is a topic index for the Posters only, at the end of the New Research Program Book. The Exhibits Guide contains a list of the exhibitors and a floor plan of the exhibit hall, along with information about the Product Theaters.

If you have any questions about this book or the scientific program, please feel free to stop by the Scientific Programs Office, Room 712, South Building, Level 7, Toronto Convention Centre, and an APA staff person will be happy to assist you. All central office APA staff will be wearing green badges.

Welcome from the Scientific Program Committee

Dear Colleagues and Guests,

Welcome to Toronto and to the 168th Annual Meeting of the American Psychiatric Association. Both the city and the meeting offer an incredibly broad range of exciting experiences and educational opportunities for all who attend. The annual APA meeting is truly a global meeting with presenters and attendees from around the world.

Under the leadership of APA President Paul Summergrad, M.D., the Scientific Program Committee has planned a diverse educational program reflecting the presidential theme, "Psychiatry: Integrating Body and Mind, Heart and Soul." Please plan to attend the Annual Business meeting on Sunday 12:30 p.m. to 1:30 p.m. at in Room 106 of the Toronto Convention Centre.

The meeting offers a series of "tracks" on specialty areas including addiction psychiatry, child & adolescent psychiatry, forensic psychiatry, geriatric psychiatry, and psychosomatic medicine. Additional "tracks" will focus on diversity and cultural psychiatry, ethics, integrated care, and military mental health. You can search by topic area in the online Itinerary Planner (www.psychiatry.org/annualmeeting) and in the APA Meetings app.

There will be a special Saturday evening performance by Dr. Richard Kogan taking place at 5:30 p.m. in the theatre (Room 102). Dr. Kogan will speak about and play the music of Chopin, in the session "The Mind and Music of Chopin." Distinguished Psychiatrist lectures will be given by Julio Licinio, M.D., Scott L. Rauch, M.D., Jerrold F. Rosenbaum, M.D., Barbara Milrod, M.D., and Anne Becker, M.D., Ph.D. Frontiers of Science lectures will be presented by Fred "Rusty" Gage, M.S., Ph.D., George Koob, Ph.D., Moshe Szyf, Ph.D., Barbara J. Mason, PhD., Philip G. Haydon, Bsc., Ph.D. Special Guests will include Ellen M. Zane, M.A., and Jonathan Moreno, Ph.D.

As always the meeting has a fantastic array of Advances sessions. Advances in Research, chaired by Herbert Pardes, M.D. and Jack Barchas, M.D., will look at research directions and clinical approaches in some of the most frequent psychiatric disorders like anxiety, depression, and personality disorders. I am particularly looking forward to co-chairing, with Anna Dickerman, M.D., an interactive Advances session, "Test Your Knowledge with The Experts: An Interactive Advances In Series On Personality Disorders, Mentalizing and Network Therapy." This session will be Tuesday, 2 p.m. to 5 p.m.

The meeting offers 16 sessions in the popular interactive format, in which attendees can engage directly with experts. Among the interactive session leaders are Dr. Summergrad, Dr. Mayberg, Dr. Nemeroff, Melissa Arbuckle, M.D., Barbara Coffey, M.D., Glen Gabbard, M.D., Otto Kernberg, M.D., Russell Lim, M.D., John Oldham, M.D., Alan Schatzberg, M.D., Nora Volkow, M.D., and Stuart Yudofsky, M.D. Please check the session listing in this book for further information as several of these sessions are for residents only.

Among the media workshops at this year's meeting are:

- Screening and Discussion of the Film "The Anonymous People"
- "Ida": A Viewing and Discussion of the Film
- "Unicorn" and "Alone With People"—A Double Feature on Young Gay/Lesbian Identities: Exploring Sexual Orientation
- What's Wrong With Lisbeth Salander? Psychopathology of "The Girl With the Dragon Tattoo"
- Power, Gender, and "The Devil Wears Prada"

With so much to offer, the 168th APA Annual Meeting promises to be an outstanding event. Enjoy your time in Toronto!

Welcome from the APA President

Dear Colleagues and Guests,

The American Psychiatric Association's 2015 annual meeting in vibrant Toronto promises to be an exceptional educational experience. You will have many outstanding sessions to choose from as we bring together some of the best minds in psychiatry to present compelling research, clinical, and practice-related sessions in one dynamic meeting.

This year's theme is "Psychiatry: Integrating Body and Mind, Heart and Soul." Psychiatry's position at the intersection of neuroscience and general medicine is reflected in the focus on advances in neuroscience, genetics and the integration of psychiatric and general medical care. Many sessions address the experience of illness: the heart and soul of the work we do.

Our Opening Session will be a lively and thought-provoking discussion with Helen S. Mayberg, M.D., the Hon. Patrick Kennedy and I discussing neuroscience research, advocacy, and the language of mental health. National Institutes of Drug Abuse Director Nora Volkow, M.D. will deliver the William Menninger Memorial Lecture at the Convocation of Distinguished Fellows, on Monday at 5:30 p.m. Kennedy will also deliver the Patient Advocacy Award lecture, titled "The Open Warmth of Community Concern and Capability: Achieving President Kennedy's Vision," on Tuesday at 9 a.m.

Several events will highlight the important role of psychiatry health care system transformation. On Monday at 9 a.m. I will chair a guest lecture by Ellen Zane, the Former CEO of Tufts Medical Center in Boston and a compelling speaker who will present on "Navigating Psychiatry and Health Care Reform." I will also moderate a forum on psychiatrists as leaders with Herb Pardes, M.D., Darrell Kirch, M.D., Robert Golden, M.D., and Peter Buckley, M.D.

On Monday at 11 a.m. Karl Deisseroth, M.D., Ph.D. will receive the Adolph Meyer award for his outstanding work in optogenetics and the recently developed CLARITY system and present the Meyer lecture on "Illuminating the Brain."

Each year we work with one of the NIH institutes at the meeting, this year will focus on the National Institute on Alcohol Abuse and Alcoholism (NIAAA), under its director George Koob, Ph.D.

On Tuesday at 11 a.m. in a unique video event, we'll show highlights of my in-depth interview with Ram Dass, a renowned American spiritual teacher, on meditation, healing, and aging.

The international lectures will showcase psychiatric experts and leaders from around the world, including Sir Simon Wessely, M.D., president of the Royal College of Psychiatrists and Florian Holsboer, M.D., director of the Max Planck Institute of Psychiatry in Munich among many others.

Presidential symposia include a session with Charles Nemeroff, M.D., Ph.D., Daniel Weinberger, M.D., Karl Deisseroth, M.D., Ph.D., and David Rubinow, M.D. on "21st-Century Psychiatry at the Interface of Genetics, Neurobiology, and Clinical Science." Other presidential symposia focus on mood disorders and neuroinflammation among other topics.

My deepest thanks to the Scientific Program Committee, under the leadership of chair Philip R. Muskin, M.D., for its outstanding work.

This meeting provides hundreds of sessions to learn the latest science, sharpen your clinical skills, and inform you about new models of care delivery, along with plentiful networking and social opportunities.

We look forward to sharing with you all the education and excitement which the APA's Annual Meeting, the year's premier psychiatric event, has to offer.

Paul Summergrad, M.D., President
American Psychiatric Association

Welcome from the APA CEO and Medical Director

Dear Colleagues and Guests,

Welcome to beautiful multicultural Toronto and the 168th APA Annual Meeting. The meeting offers the latest scientific research and new advances in clinical practice along with numerous special events and networking opportunities.

Please join us in honoring APA distinguished fellows, distinguished life fellows, international fellows, winners of several awards and others at the Convocation of Distinguished Fellows. We are honored to have National Institute on Drug Abuse Director Nora D. Volkow, M.D., presenting the William C. Menninger Memorial Convocation Lecture. The Convocation will be held Monday, May 18, 5:30 p.m.-6:30 p.m. in Exhibit Hall A, Toronto Convention Centre.

Among the many other award lectures being presented at the meeting are:

- George Tarjan Award Lecture *Marie–Claude Rigaud, M.D.*
- Simon Bolivar Award Lecture *Carlos Zarate, M.D.*
- Alexandra Symonds Award Lecture *Carol A. Bernstein, M.D.*
- Solomon Carter Fuller Award Lecture *Dorothy E. Roberts, J.D.*
- Kun–Po Soo Award Lecture *Russell F. Lim, M.D., M.Ed.*
- Adolf Meyer Award Lecture *Karl Deisseroth, M.D., Ph.D.*
- Patient Advocacy Award *Patrick J. Kennedy*

This year's American Psychiatric Foundation annual benefit to support its public-education and research initiatives will be held on Saturday, May 16, 7 p.m. to 10 p.m. at Toronto's famous CN Tower. This special event at the Horizons restaurant on the LookOut level promises spectacular views of the city along with a program honoring recipients of the 2015 Awards for Advancing Minority Mental Health. (Ticket required.)

A special series of scientific sessions and events have been developed for residents. The always popular national Jeopardy-like competition for residents, MindGames, will be held Tuesday, May 19, 5:15 p.m.-6:15 p.m., Room 106, Toronto Convention Centre.

Of course, the city of Toronto has numerous choices to add excitement and entertainment to your visit. Tour an elegant 98-room castle, Casa Loma; visit the international exhibits of the Royal Ontario Museum; stroll the Art Gallery of Ontario; visit the Hockey Hall of Fame; or take in a Toronto Blue Jays game.

If you haven't already, be sure to download the APA Meetings app for easy access to program information and the latest update alerts during the meeting.

Welcome from the Canadian Psychiatric Association and Ontario District Branch of APA

Dear Colleagues and Guests,

On behalf of the Canadian Psychiatric Association and the Ontario District Branch of the American Psychiatric Association, we are delighted to welcome you to Canada and the host city of Toronto! In addition to renewing acquaintances, meeting new colleagues, and adding to your clinical knowledge at the APA's 168th Annual Meeting, we hope that you will take in the sights and sounds of Canada's largest metropolis and the provincial capital of Ontario. With a population of 5.5 million, Toronto was recently ranked by The Economist as the world's best city to live in.

Named in 1834, Toronto is a world-class city with a wide variety of nightlife, theatre and performing arts, museums, and over 7,000 restaurants—you'll never be at a loss for choice. From an academic standpoint, the University of Toronto is ranked as a top 20 university globally and is home to a Department of Psychiatry with over 800 faculty members. Toronto is also Canada's financial epicenter, home to the Toronto Stock Exchange, and headquarters to Canada's five largest banks and many other leading organizations.

The city has one of the world's most diverse populations—close to 1 in 2 Toronto residents are born outside of Canada—providing a deep cultural experience. Altogether the city offers a unique experience that blends Canada's historic ties to the United Kingdom with an outward looking view toward an increasingly interconnected and innovative world.

We sincerely hope that your stay is memorable and one where you have an opportunity to listen, learn and enjoy.

Padraic Carr, M.D.

Continuing Medical Education

Educational Objectives

At the conclusion of this meeting the participant will be able to:

1. Review new research findings in the fields of psychiatry and neuroscience and address gaps in knowledge;
2. Acquire new knowledge and skills in clinical psychiatry, which can be utilized to improve patient care;
3. Identify and remove barriers to the transfer of new knowledge for your practice, including provision of culturally competent care for diverse populations;
4. Assess a variety of treatment choices, including psychotherapeutic and pharmacological options; and
5. Recognize mental health service delivery issues, including barriers to care.

The APA is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The APA designates this live activity for a maximum of 50 *AMA PRA Category 1 Credits*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Please note: Canadian physicians may record this group learning activity for Royal College of Canada MOC Section 1 credits.

The scientific sessions on the official Annual Meeting program, with some exceptions, meet the criteria for *AMA PRA Category 1 Credit*™. Sessions in the following program formats are designated as Category 1: **Advances in… Series; Case Conferences; Courses; Focus Live; Forums; Lectures; Master Courses; Presidential Symposia; Scientific and Clinical Reports; Seminars; Small Interactive Sessions; Symposia;** and **Workshops**.

New Research Poster Sessions are NOT designated for *AMA PRA Category 1 Credit*™.

Scientific sessions are open to all Annual Meeting registrants with the exception of Case Conferences, which are open to APA members only. Courses and Master Courses require a ticket and an additional fee.

To document CME credit earned at the Annual Meeting, participants should maintain a list of sessions they attended. Credit is earned on an hour–for–hour basis. A daily attendance log is provided in this book for listing your sessions and credits.

Daily Bulletin

Room 401, Terrace View South Building, Level 400

The *Daily Bulletin* accepts written requests from APA members for publicity of component, committee, and allied group events as space allows. Three issues are published. The issue for Saturday/Sunday is published in advance. Copy for the Monday and Tuesday issues can be dropped off in Room 401, Terrace View South, Level 400, by 12:00 p.m. the day before the publication date.

General Information

Scientific Session Capacity Guidelines

If overcrowding occurs in a scientific session we ask your assistance so that all in attendance can benefit. Please abide by the following guidelines if you are in a crowded room.

1. Take a seat as close to the front of the room as possible;
2. Move to the center of the row and fill all seats, so that chairs are available on the aisles for additional attendees;
3. Don't stand or sit in the aisles or lean against walls. Overcrowding of meeting rooms may subject the session to shut down by the Fire Marshall; therefore, please either find a seat or attend another session.

Sunday May 17	7:30 p.m.
Monday May 18	7:30 p.m.
Tuesday May 19	5:30 p.m.*
Wednesday May 20	5:30 p.m.

A 2015 meeting badge is required to ride on the courtesy shuttle bus. The Toronto Convention Centre will serve as the "hub" for all shuttle bus routes. A continuous shuttle will run between the North and South buildings Saturday–Wednesday. A detailed shuttle bus schedule will be available on site and will be posted in the lobbies of participating hotels.

*After the regular shuttle departures end at 5:30 p.m., there will be one departure only for all routes at 6:30 p.m. from the North Building for those attending Mind Games.

Smoking Policy

Smoking is not allowed anywhere in the Toronto Convention Centre.

Audio and Visual Reproduction Policies

Registrants are not permitted to photograph or video any session as the intrusive nature of recording may be disruptive. This includes photographs taken with cell phone cameras. Audio recording is permitted for personal use, only. Registrants are welcome to use their own small, portable audio recorders to record any session except case conferences or unless prohibited by the presenters. Larger professional tape recorders are not permitted except for use by registered members of the working press in accordance with APA Press Policies. Media will be identified with appropriate badges and approved equipment will be identified with APA Newsroom stickers. APA has authorized a professional taping firm, who will be clearly identified, to record sessions.

Wi-Fi

Attendees will have free wireless access in all public spaces, meeting rooms, and the Connection Café (Pre-Function, South Building, Level 800) which is supported by Janssen Pharmaceuticals Inc.

There is also free wireless in the two APA Cafés (Exhibit Halls D-E, South Building, Level 800, open during exhibit hours) which also include free coffee and charging stations for laptops, cell phones, and other devices. These are supported by Takeda Pharmaceuticals USA Inc. and Lundbeck Inc.

Disclosure Index

American Psychiatric Association Continuing Medical Education Policy on Full Disclosure

The American Psychiatric Association requires disclosure by all program planners and presenters at CME activities of any financial or other affiliation with commercial organization(s) that may have a direct or indirect interest in the subject matter of the educational activity. A "financial interest" may include, but is not limited to: being an employee and/or being a shareholder in the organization; being on retainer with the organization; or having research or honoraria paid by the organization. An "affiliation" may include holding a position on an advisory committee, speakers' bureau or some other role or benefit to a supporting organization.

In compliance with the ACCME's Standards for Commercial Support, the APA has a management of conflict (MCI) process for all CME activities. This process ensures that all conflicts of interest are identified, managed and resolved prior to the educational activity. Additionally, the prospective audience must be informed of the presenters' or program planners' affiliations with every commercial interest by an acknowledgement in the printed program and verbal or visual disclosure to participants at the session (disclosure by slide or overhead is required if audiovisual equipment is used for the presentation). Disclosing to learners the relevant financial relationships that were present and resolved, assists learners in assessing the potential for bias in the information that is presented. The APA also requires verbal disclosure of discussion of unlabeled uses of a commercial product or investigational use of a product not yet approved for this purpose.

The presenters and planners on the following pages indicated that either they or a spouse/partner have a financial interest or other affiliation with a commercial entity producing, marketing, re-selling, or distributing health care goods or services consumed by or used on patients; the company name and affiliation is also listed. Providers of clinical service directly to patients are not considered to be commercial interests. The second group of presenters and planners indicated neither they nor a spouse/partner have any significant relationship to disclose.

All presenters and planners must complete a disclosure in order to participate in an APA CME activity. This disclosure listing includes the presenters and planners of the Scientific Program and New Research Poster Sessions.

Advances in Series

These sessions are intended to highlight important new advances occurring in the field of psychiatry involving selected disorders or treatments. Some of these sessions are chaired by editors of recent textbooks published by American Psychiatric Publishing, (APP), and feature selected chapter authors from these texts. The books discussed at these sessions may be purchased at the APP bookstore or online. During the Advances in Research Session, leading clinical researchers present the latest developments in research. Other types of advances in sessions include topics designed to provide psychiatrists with the latest in clinical developments in other areas of medicine. The intent is to give the audience an update from a physician in a particular specialty. These sessions will help attendees keep pace with the rapidly expanding knowledge base and technology in various branches of medicine.

Case Conferences

During these 90-minute sessions, clinical material is presented by videotape or the treating therapist. One or more experts then discuss the case.

Courses/Master Courses

Courses are designed to emphasize learning experiences that actively involve participants and include the opportunity for informal exchange with the faculty. Offered in four-hour (half-day), six-hour (full-day), and eight-hour (full-day) sessions, courses either review basic concepts in a special subject area or present advanced material on a circumscribed topic. Attendees must be registered for the meeting and purchase tickets to attend.

Focus Live!

These 90-minute sessions allow attendees to test their knowledge using an interactive Audience Response System (ARS), offering a new and entertaining way to learn. By using the ARS, attendees will feel like they are involved in a small group consultation with an expert clinician, even though the session is being attended by a large number of people. Experts, who served as guest editors of FOCUS, will lead lively multiple choice question-based discussions, and the audience will enter their answers using hand-held devices. The results are instantly tallied and projected on the screen.

Forums

These are flexible presentations that afford an opportunity to highlight and select topics that are of timely interest to psychiatrists and other mental health professionals. Speakers and panel members are chosen by the Scientific Program Committee for their expertise and leadership in the field.

Format Descriptions

Lectures

Lectures feature a small number of distinguished speakers discussing scientific and cultural topics, many of which will extend our understanding beyond the usual limits of clinical psychiatry. The Scientific Program Committee invites the lecturers. Award lectures are selected by the various APA Award Boards and/or Councils. All award lecturers are approved by the Board of Trustees.

New Research

This format allows for presentation of very recent findings. Posters, which are visual, are self-explanatory presentations. Two poster sessions on Monday will be designated as Young Investigators' Poster Sessions, which will contain poster presentations from young investigators, residents, medical students, and research or clinical fellows.

Scientific And Clinical Reports

Scientific and Clinical Reports are oral presentations of papers prepared for submission before publication. In this 90-minute format, reports are grouped by topic, with discussion from the audience following the presentation of each paper. There is no formal discussant.

Seminars

Seminars are designed to emphasize in-depth learning experiences that actively involve participants and include the opportunity for informal exchange with the presenters. Offered in four-hour (half-day) sessions, seminars either review basic concepts in a special subject area or present advanced material on a circumscribed topic.

Interactive Sessions

This 90-minute format allows small groups to meet informally with either selected experts in psychiatry to discuss topics chosen by the expert; to obtain consultations for problems in research from senior researchers; or utilize clinical material offered by the attendee and hear clinically-based seminars presented by outstanding educators.

Symposia/ Presidential

Symposia are two or three-hour sessions consisting of four to six presentations that are thematically linked and focus on a specific topic relevant to clinical psychiatry. They are designed to provide comprehensive treatment on a topic or discussion of the topic from several points of view by the participants and stimulate discussion with the audience.

Workshops/ Media

Workshops are 90-minute sessions, which typically involve brief presentations from individual panel members, followed by the opportunity for lively and informative discussion. This format provides for substantial audience participation and should be highly interactive. Media Workshops are three-hour sessions where a feature-length film is shown and discussed.

Bio

Carol A. Bernstein, M.D. is Associate Professor of Psychiatry, Vice Chair for Education in Psychiatry and Director of Residency Training in Psychiatry at the NYU School of Medicine. From 2001-2011, Dr. Bernstein also served as the Associate Dean for Graduate Medical Education and the Designated Institutional Official for ACGME accredited training programs at NYU. Dr. Bernstein is a Past-President of the American Psychiatric Association and has served the Association as Vice-President, Treasurer and Trustee-at-Large and as the chair of multiple committees. She has served as a spokesperson for the American Psychiatric Association on many occasions and received the 1997 exemplary psychiatrist award from the National Alliance for the Mentally Ill (NAMI). In 2014, she was the recipient of the APA/NIMH Vestermark Award in Psychiatric Education. Dr. Bernstein has devoted her entire career in medicine to the education and training of the next generation of psychiatrists.

Dr. Bernstein completed medical school at the Columbia University College of Physicians and Surgeons. Following an internship in internal medicine at St. Luke's/Roosevelt Medical Center in New York, she completed her psychiatric residency training at Columbia University and the New York State Psychiatric Institute. Dr. Bernstein is active in many national psychiatric associations in addition to the APA - these include the American College of Psychiatrists (she was elected to the Board of Regents in February of 2012), the Group for the Advancement of Psychiatry and the American Board of Psychiatry and Neurology, among others. In 2003, Dr. Bernstein was selected as a Fellow in ELAM (Executive Leadership in Academic Medicine) a national program, designed to promote leadership for women in medicine. In 2005, Dr. Bernstein completed the Physician Leadership Development Program at NYU as well as the Graduate Medical Education Leadership Program of the ACGME. In 2010, Dr. Bernstein was appointed to the Board of Directors of the ACGME – the body that accredits the more than 8000 residency and fellowship training programs in the United States. Dr. Bernstein has written numerous articles and chapters on psychiatric education and has served as a peer reviewer for both the *American Journal of Psychiatry* and *Academic Psychiatry*. She has served on the editorial boards of *Academic Psychiatry*, the *Journal of Psychiatric Services* and *Focus*, has presented at more than 70 conferences and meetings and has been the recipient of a number of visiting professorships. Dr. Bernstein hosts a weekly call-in show for consumers on Sirius Radio's Doctor Radio Channel which is sponsored by the NYU Langone Medical Center. Besides her academic responsibilities, Dr. Bernstein maintains a private practice in psychiatry in Manhattan, is married to a psychiatrist and the mother of a seventeen year old daughter.

Bio

Anne E. Becker, MD, Ph.D. is the Maude and Lillian Presley Professor of Global Health and Social Medicine at Harvard Medical School, where she also serves as Vice Chair of the Department of Global Health and Social Medicine. An anthropologist and psychiatrist, Dr. Becker was lead investigator on a series of studies demonstrating the relationship between media exposure and eating pathology in the small-scale indigenous population of Fiji. In addition, Dr. Becker's NIMH-funded research has investigated the impact of rapid economic and social transition on eating pathology, suicide, and other youth health risk behaviors in Fiji. She and her co-PI, Pere Eddy Eustache, have just completed a school-based youth mental health pilot intervention in central Haiti with NIMH funding. Dr. Becker serves as vice chairperson of the APA's Council on International Psychiatry, is founding and past Director of the Eating Disorders Clinical and Research Program at Massachusetts General Hospital, an associate editor of the *International Journal of Eating Disorders*, past president of the Academy for Eating Disorders, and served as a member of the APA's DSM-5 Eating Disorders Work Group. She received the 2013 Price Family Award for Research Excellence from the National Eating Disorders Association.

Bio

Russell F. Lim, M.D., M.Ed. is completed his Adult Psychiatric Residency at the University of California, San Francisco. Currently, he is a Health Sciences Clinical Professor at the University of California, Davis (UCD), where he has been for the last 17 years.

He is committed to providing mental health services to seriously persistently mentally ill adults in the community with an emphasis on culturally appropriate diagnosis and treatment.

He edited *The Clinical Manual of Cultural Psychiatry*, Second Edition for APPI in 2015, and the first edition in 2006. In his role as Chair of the Diversity Advisory Committee (DAC), founded in 1999, he received the American College of Psychiatrists' (ACP) Award for Creativity in Psychiatric Education in 2007. DAC's four-year curriculum in cultural psychiatry was chosen as one of two model curriculums in Cultural Psychiatry by the American Association of Directors of Psychiatry Training (AADPRT) in 2010.

Bio

Simon Wessely, M.A., M.D., M.Sc. is Professor and Head of the Department of Psychological Medicine and Vice Dean for Academic Psychiatry at the Institute of Psychiatry (IoP), King's College London. He is a clinical liaison psychiatrist, with a particular interest in unexplained symptoms and syndromes, and a clinical epidemiologist with an interest in military health.

Born and educated in Sheffield, he studied medical sciences and history of art at Trinity Hall, Cambridge, and then finished his medical training at University College Oxford, graduating in 1981. He obtained his medical membership in Newcastle, before moving to London's Maudsley Hospital to train in psychiatry, where he also obtained a Master's and Doctorate in epidemiology. His doctoral thesis was on crime and schizophrenia. Professor Wessely has been a consultant liaison psychiatrist at King's College Hospital and the Maudsley Hospital since 1991, where he set up the first NHS service for sufferers from chronic fatigue syndrome.

His interest in military health dates back to his work on Gulf war related illness, after which he helped set up the King's Centre for Military Health Research, a unique collaboration between the IoP and the KCL Department of War Studies. Its flagship project, a large-scale ongoing study of the health and wellbeing of the UK Armed Forces, has had a direct impact on public policy and on forms of treatment and help for Service personnel. He is Civilian Consultant Advisor in Psychiatry to the British Army and has visited services in Bosnia, Iraq and Afghanistan. He is a trustee of Combat Stress, the principal UK charity for veterans with mental health problems, and his contributions to veterans' charities include cycling (slowly) seven times to Paris to raise funds for service personnel in need.

He established the first clinical trials unit in this country dedicated to mental health, and is a Foundation Senior Investigator of the National Institute for Health Research, and Fellow of the Academy of Medical Sciences. In 2012 he was awarded the first *Nature* "John Maddox Prize" for Standing Up for Science, and was knighted in the 2013 New Year's Honours List.

Bio

Philip G. Haydon, Ph.D. is the Annetta and Gustav Grisard Professor and Chair of Neuroscience at Tufts University School of Medicine, Boston, USA. For the past twenty years his research has focused on roles played by astrocytes in the modulation of neuronal activity, synaptic transmission, behavior and more recently into the use of glial targets as therapeutic interventions for brain disorders. He graduated from the Department of Physiology, University of Leeds England with B.Sc (Hons) and Ph.D. in 1979 and 1982, respectively and then moved to the USA for postdoctoral studies and subsequent faculty positions. He obtained his first faculty position at Iowa State University where his studies of glial-neuron interactions commenced in 1992. In 1994 he published the first paper demonstrating the regulated release of gliotransmitters and demonstrated that astrocytes could modulate neuronal activity through the release of the excitatory transmitter glutamate. In 1999, together with colleagues in his laboratory, he coined the concept of "The Tripartite Synapse" to recognize the important role played by astrocytes in the modulation of synaptic transmission. Subsequently, while at the University of Pennsylvania School of Medicine, he integrated molecular genetics into his studies and demonstrated the role for astrocyte released ATP, that leads to adenosine accumulation, in the modulation of excitatory synaptic transmission and in the control of sleep. Because sleep disorders are co-morbid with numerous brain disorders, his recent research has turned to understanding how glia contribute to dysfunction of the brain in disorders including depression and Alzheimer's disease.

He has received numerous prestigious awards including the McKnight Innovator Award and the Jacob Javits Award from the NINDS of the NIH.

Bio

Florian Holsboer, M.D., Ph.D. was born in Munich, Germany and studied chemistry and medicine at the University of Munich where he completed his residency in psychiatry. His areas of study include: Affective disorders, depression, anxiety, central regulation of stress hormones, sleep physiology, molecular and clinical psychopharmacology, pharmacogenetics and personalized medicine.

In 1989 Professor Holsboer became Director of the Max-Planck Institute for Psychiatry. The institute is a research center for disorders of the central nervous system. Research is conducted by 28 different research groups in a broad range of areas from molecular biology to pharmacology, to human and mouse genetics, proteomics and chemical genomics.

His extensive knowledge and research of mental health issues will give attendees an overview of how current research trends are shaping the future of mental health research.

Bio

Ashley Bush, M.D. Ph.D. is professor of neuroscience at The University of Melbourne, Director of the Oxidation Biology Unit at The Florey Institute of Neuroscience & Mental Health, and a psychiatrist at the Massachusetts General Hospital, Boston. He is the recipient of numerous awards including the Beeson Award, the Senator John T. Hatfield Award from the Alzheimer's Association, and the Potamkin Prize from the American Academy of Neurology. He is the most highly cited neuroscientist in Australia over the last 10 years, and in 2014 was listed in the Thompson ISI list of The World's Most Influential Scientific Minds. Professor Bush has authored over 310 publications, with over 21,000 citations, 23 patents and has founded 4 biotechnology companies. He discovered the interaction of beta-amyloid with zinc as a major factor in Alzheimer's disease pathogenesis, and focuses on the neurobiology of metal ions and oxidative stress in neurodegenerative and psychiatric disorders.

A Special Conversation on Science, Advocacy, and Talking About Mental Health with Paul Summergrad, M.D., Helen S. Mayberg, M.D., and The Hon. Patrick Kennedy

APA President Paul Summergrad, M.D., renowned researcher Helen S. Mayberg, M.D., and former U.S. Rep. Patrick Kennedy will engage in a thought-provoking conversation about neuroscience opportunities in psychiatry, the role of advocacy, and the unique challenges of talking about mental health and complex neuropsychiatric illness.

Paul Summergrad, M.D., is president of the American Psychiatric Association. He is the Psychiatrist-in-Chief of Tufts Medical Center and the Dr. Frances S. Arkin Professor and Chairman of the Tufts Medical Center Physicians Organization. During his distinguished career, he has published extensively on the history and development of psychiatry, medical psychiatry, and strategic planning in academic psychiatry.

Helen S. Mayberg, M.D., is a professor of psychiatry, neurology, and radiology at Emory University School of Medicine. She heads a multidisciplinary depression research program dedicated to the study of brain circuits in depression and the effects of various antidepressant treatments measured using an array of functional and structural imaging tools. She was recently named Emory University's "Game Changers" in recognition of her pioneering deep brain stimulation (DBS) research.

Patrick Kennedy spent 16 years in the U.S. House of Representatives and is predominately known as the author and lead sponsor of the Mental Health Parity and Addiction Equity Act of 2008. This legislation provides access to mental health care to tens of millions of Americans who were previously denied care. He has long been an outspoken advocate for mental health care. He is the co-founder of One Mind, a national coalition seeking new treatments and cures for neurologic and psychiatric diseases, and the founder of the Kennedy Forum on Community Mental Health.

Bio

Ellen M. Zane, M.A. is a nationally renowned health care leader who recently retired as President & Chief Executive Officer of Tufts Medical Center and the Floating Hospital for Children. She was the first woman to run the hospital in its 218-year history. The hospital employs more 5,000 doctors, nurses, researchers, and other healthcare workers, includes Floating Hospital for Children, and has 450 beds. Ellen remains involved at Tufts Medical Center as a vice chair of the Board of Trustees. Ellen holds two faculty appointments at Tufts University School of Medicine including: Assistant Professor in the Department of Medicine, Division of Clinical Care Research and Assistant Professor of Public Health & Community Medicine. Additionally, Ellen holds a faculty appointment as Adjunct Assistant Professor in the Health Policy and Management at the Harvard School of Public Health. For the period of 2011 to 2013, Ellen was a Distinguished Guest Lecturer in Healthcare Administration at the Sawyer Business School at Suffolk University.

From 1994 to 2004, Ellen held the position of Network President for Partners HealthCare System, Inc. In this capacity, she was responsible for the development of a provider network featuring the Massachusetts General Hospital and Brigham & Women's Hospital. The network encompassed 5600 physicians and represented $800+ million of managed care revenue. Today, this entity represents one of the largest physician networks in America.

Prior to that, Ellen was the Chief Executive Officer at Quincy Hospital in Quincy, Massachusetts. Ellen was an employee of HCA and then Quorum Health Resources in this capacity.

Ellen received her Professional Director Certification from the American College of Corporate Directors in 2013, her Bachelor of Arts degree from the George Washington University in Washington, D.C. in 1973 and her Master of Arts degree in 1975 from the Catholic University of America in Washington. She holds the following honorary degrees: Doctorate of Commercial Science from Bentley University, Doctorate of Business Administration from Stonehill College; and Doctorate of Humane Letters from Curry College.

Ellen is currently a Director of Brooks Automation (NASDAQ-BRKS); a Director of Haemonetics Corporation (NYSE-HAE); and a Director of Parexel International (NASDAQ-PRXL). She is a Director of Press Ganey, a private company nationally known as the preeminent provider of patient satisfaction measurement and data in acute hospital settings; and the Vice Chair of the Board of Trustees at George Washington University, Washington DC.

Ellen is a former Director of Lincare Holdings, Inc. (NASDAQ-LNCR); a former Director of Variagenics, Inc. (NASDAQ-VGNX), a Cambridge, Massachusetts biotech public company focused on pharmacogenomics; a former member of the Board of Overseers at the Tufts University School of Medicine; a former Chair of the Board of the Massachusetts Hospital Association; a former Trustee of Northeastern University; and also a former Director of the John F. Kennedy Library Foundation. From 1996 to 2001, Ellen was a member of the Board of Governors at the Warren Grant Magnuson Clinical Center (national hospital) at the National Institutes of Health in Washington, DC.

Bio

Jerrold F. Rosenbaum, M.D. is Psychiatrist-in-Chief at Massachusetts General Hospital (MGH) and Stanley Cobb Professor of Psychiatry at Harvard Medical School. Dr. Rosenbaum heads a department of more than 600 clinicians, researchers, and trainees, ranked in 2014 by U.S. News and World Report as #1 for Psychiatry and for 17 of the last 19 years. He served as President and Chairman of the Board of the Anxiety and Depression Association of America (ADAA) and is Chair of the Scientific Council and on the Board of Directors for the American Foundation for Suicide Prevention (AFSP). He also serves on the MGH Board of Trustees. He has authored more than 400 original articles and reviews and authored or edited 20 books. Dr. Rosenbaum is a graduate of Yale College and Yale School of Medicine and Psychiatry residency at MGH, Harvard Medical School.

Bio

James L. Kennedy, M.D. has training in three major areas: neuroscience, clinical psychiatry, and molecular genetics. His main research interest over the past 20 years has been the identification of susceptibility genes for psychiatric disorders. His discoveries include: 1) the role of the DRD4 gene in ADHD, 2) the genetic predictors of antipsychotic response and side effects, 3) the 5HTTLPR genetic marker predicts risk for antidepressant induced mania. He has published pioneering findings relating gene variants in the dopamine, serotonin, and neurodevelopment systems to psychiatric disorders, neuroimaging (PET and MRI) and to treatment response. A major current project led by Dr. Kennedy is examining a large sample (N=20,000) of patients to determine the usefulness and cost-benefit of genetic testing applied to choice and dosage of psychiatric medications in clinical care. Dr. Kennedy has published more than 540 scientific articles with over 25,000 citations, and he is an active lecturer at numerous international conferences.

Bio

Karl Deisseroth, M.D., Ph.D., is the D.H. Chen Professor in the Bioengineering and Psychiatry Departments at Stanford, and is a practicing inpatient and outpatient psychiatrist, employing medications and interventional brain stimulation techniques (VNS, TMS and others) to treat patients with psychiatric disease. He received his bachelor's degree from Harvard in 1992, his PhD from Stanford in 1998, and his MD from Stanford in 2000. He completed postdoctoral training, medical internship, and adult psychiatry residency at Stanford, and he was board-certified in 2006 by the American Board of Psychiatry and Neurology. Deisseroth led the development and application of optogenetics: the integration of genetics and optics to achieve gain- or loss-of-function of well-defined events (such as action potential patterns) in defined cell types within intact biological systems. He also led the development of CLARITY, a chemical engineering-based method for transforming biological systems by creating a tissue-hydrogel hybrid, to allow full transparency and accessibility to molecular labels without slicing or sectioning; CLARITY enables high-throughput whole brain analysis of wiring and fine structure without disassembly. He has also led both basic science and disease-focused work employing optogenetics and CLARITY, with investigations into aspects of Parkinsonism, anxiety, social dysfunction, depression, and other neuropsychiatric disease symptoms. Deisseroth also serves as Director of Undergraduate Education in Bioengineering at Stanford, teaches yearly courses in the graduate and undergraduate curricula, and provides education and training in optogenetics and CLARITY as well as freely distributing and supporting tools and expertise to thousands of scientists worldwide. He was elected to the Institute of Medicine in 2010 and to the National Academy of Sciences in 2012, and selected as a Howard Hughes Medical Institute Investigator in 2013. For developing and applying optogenetics and CLARITY, Deisseroth has received the NIH Director's Pioneer Award (2005), the Zuelch Prize (2012), the BRAIN prize (2013), the Pasarow Prize (2013), and the Perl Prize (2012), and among other awards, is the sole recipient of the 2010 Koetser Prize, the 2010 Nakasone Prize, the 2011 Alden Spencer Prize, the 2013 Richard Lounsbery Prize, the 2014 Dickson Prize in Science, and the 2014 Keio Prize in Medical Sciences.

Moshe Szyf, Ph.D. received his Ph. D from the Hebrew University and did his postdoctoral fellowship in Genetics at Harvard Medical School, joined the department of Pharmacology and Therapeutics at McGill University in Montreal in 1989 and currently holds a James McGill Professorship and GlaxoSmithKline-CIHR Chair in Pharmacology and is a fellow of the Royal Society of Canada. He is the founding co-director of the Sackler Institute for Epigenetics and Psychobiology at McGill and is a Fellow of the Canadian Institute for Advanced Research Experience-based Brain and Biological Development program. Szyf has been the founder of the first "Pharma" to develop epigenetic pharmacology "Methylgene Inc." and the first journal in epigenetics "Epigenetics". Szyf lab has proposed two decades ago that DNA methylation is a prime therapeutic target in cancer and other diseases and has postulated and provided the first set of evidence that the "social environment" early in life can alter DNA methylation launching the emerging field of "social epigenetics".

Bio

Jonathan Moreno, Ph.D. is a philosopher and historian. As the David and Lyn Silfen University Professor at the University of Pennsylvania, Moreno is one of fifteen Penn Integrates Knowledge professors. At Penn he is also Professor of Medical Ethics and Health Policy, of History and Sociology of Science, and of Philosophy. Among his books are The Body Politic, which was named a Best Book of 2011 by Kirkus Reviews, Mind Wars (2012), and Undue Risk (2000).

His latest book, *Impromptu Man: J.L. Moreno and the Origins of Psychodrama, Encounter Culture, and the Social Network* (2014), traces the life and influence of his father, the founder of role playing and social network analysis.

Moreno frequently contributes to such publications as *The New York Times*, *The Wall Street Journal*, *The Huffington Post*, and *Psychology Today*, and often appears on broadcast and online media. In 2008-09 he served as a member of President Barack Obama's transition team. His work has been cited by Al Gore and was used in the development of the screenplay for "The Bourne Legacy." His online neuroethics course drew more than 36,000 registrants in fall 2013. *The American Journal of Bioethics* has called him "the most interesting bioethicist of our time."

Moreno is an elected member of the Institute of Medicine of the National Academy of Sciences and is the U.S. member of the UNESCO International Bioethics Committee. A Senior Fellow at the Center for American Progress in Washington, D.C., Moreno has served as an adviser to many governmental and non-governmental organizations, including three presidential commissions, the Department of Defense, the Department of Homeland Security, the Department of Health and Human Services, the Centers for Disease Control, the Federal Bureau of Investigation, the Howard Hughes Medical Institute, and the Bill and Melinda Gates Foundation.

Moreno holds a Ph.D. from Washington University in St. Louis, was an Andrew W. Mellon post-doctoral fellow, was awarded an honorary doctorate by Hofstra University, and is a recipient of the Benjamin Rush Medal from the College of William and Mary Law School and the Dr. Jean Mayer Award for Global Citizenship from Tufts University.

Bio

Dorothy E. Roberts, J.D. is the 14th Penn Integrates Knowledge Professor and George A. Weiss University Professor of Law & Sociology at the University of Pennsylvania, with joint appointments in the Departments of Africana Studies and Sociology and the Law School, where she is the inaugural Raymond Pace and Sadie Tanner Mossell Alexander Professor of Civil Rights. She is also Director of the Penn Program on Race, Science & Society. An internationally recognized scholar, public intellectual, and social justice advocate, she has written and lectured extensively on the interplay of gender, race, and class in legal issues and has been a leader in transforming thinking on reproductive health, child welfare, and bioethics. Professor Roberts is the author of the award-winning books Killing the Black Body: Race, Reproduction, and the Meaning of Liberty (Random House/Pantheon, 1997) and Shattered Bonds: The Color of Child Welfare (Basic Books/Civitas, 2002), as well as co-editor of 6 books on constitutional law and gender. She has also published more than 90 articles and essays in books and scholarly journals, including Harvard Law Review, Yale Law Journal, and Stanford Law Review. Her latest book, Fatal Invention: How Science, Politics, and Big Business Re-create Race in the Twenty-First Century, was published by the New Press in July 2011. Among her many public interest positions, Roberts is Chair of the Board of Directors of the Black Women's Health Imperative.

Bio

Barbara Milrod, M.D. is Professor of Psychiatry at Weill Cornell Medical College and is on the faculty of both the New York Psychoanalytic Institute and the Columbia Psychoanalytic Institute for Treatment and Research. She is an Associate Editor of *The American Journal of Psychiatry*, and serves on the Editorial Board of *Psychoanalytic Psychology*. She is an internationally-recognized expert in the area of clinical trials of psychotherapy outcome, particularly concerning anxiety disorders and psychoanalytic treatments, and has developed and tested an operationalized form of psychoanalytic psychotherapy for panic disorder, for which she has demonstrated efficacy. This continues to be the only psychoanalytic psychotherapy with demonstrated efficacy for an Axis I anxiety disorder. Dr. Milrod has received numerous awards and grants from a number of institutions, including the National Institute of Mental Health and the Brain and Behavior Research Foundation. She is currently developing and testing a psychoanalytic psychotherapy for non-responders with anxiety disorders and depression with her NARSAD Distinguished Investigator Award.

Bio

Patrick J. Kennedy, J.D. spent 16 years in the U.S. House of Representatives and is predominately known as the author and lead sponsor of the Mental Health Parity and Addiction Equity Act of 2008. This legislation provides access to mental health care to tens of millions of Americans who were previously denied care. He has long been an outspoken advocate for mental health care. He is the co-founder of One Mind, a national coalition seeking new treatments and cures for neurologic and psychiatric diseases, and the founder of the Kennedy Forum on Community Mental Health.

Bio

Fred H. Gage, M.S., Ph.D. is an Adler Chair in the Laboratory of Genetics at the Salk Institute. He received his Ph.D. in 1976 from The Johns Hopkins University. His work concentrates on the unexpected plasticity and adaptability the brain and genome of all mammals. He was President of the Society for Neuroscience and of the International Society for Stem Cell Research. He is a Fellow of the AAAS, a Member of the NAS and IOM, a Fellow of the American Academy of Arts and Sciences, an Associate Member of EMBO, and a member of the American Philosophical Society.

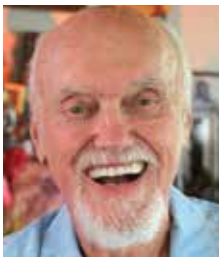
Bio



Ram Dass, Ph.D. (Richard Alpert), one of America's most beloved spiritual teachers, has made his mark on the world by teaching the path of the heart and promoting service in the areas of social consciousness and care for the dying. Richard Alpert, Ph.D., was a prominent Harvard psychologist and psychedelic pioneer with Timothy Leary, Ph.D. before his first trip to India in 1967. In India, he met his guru, Neem Karoli Baba, who gave Ram Dass his name, which means "servant of God."

Ram Dass became a pivotal influence in our culture with the publication of *Be Here Now* in 1970. He published numerous other books including *Still Here* in 2004, *Be Love Now* in 2010, and with co-author Rameshwar Das, *Polishing the Mirror: How to Live from Your Spiritual Heart* in 2013.

Ram Dass' spirit has been a guiding light for four decades, carrying millions along the journey. He now makes his home in Maui and teaches worldwide through his website (RamDass.org) and continues work through his Love Serve Remember Foundation and Hanuman Foundation.

Bio

George Koob, Ph.D., is Director of the National Institute on Alcohol Abuse and Alcoholism (NIAAA) as of January 27, 2014. As NIAAA Director, Dr. Koob oversees a wide range of alcohol-related research, including genetics, neuroscience, epidemiology, prevention, and treatment.

As an authority on alcoholism, drug addiction and stress, he has contributed to our understanding of the neurocircuitry associated with the acute reinforcing effects of alcohol and drugs of abuse and the neuroadaptations of the reward and stress circuits associated with the transition to dependence. Dr. Koob has published over 650 peer reviewed papers and several books, including the *Neurobiology of Addiction*, a comprehensive treatise on emerging research in the field, and a textbook for upper division undergraduates and graduate students called *Drugs, Addiction and the Brain*. He has mentored 11 Ph. D students and over 75 post-doctoral fellows.

He received his Ph.D. in Behavioral Physiology from Johns Hopkins University in 1972. He spent much of his early career at the Scripps Research Institute as the Director of the Alcohol Research Center, and as Professor and Chair of the Scripps' Committee on the Neurobiology of Addictive Disorders. He has also served as a researcher in the Department of Neurophysiology at the Walter Reed Army Institute of Research and the Arthur Vining Davis Center for Behavioral Neurobiology at the Salk Institute for Biological Studies.

Bio

Marie-Claude Rigaud, M.D. is a Distinguished Life Fellow of the American Psychiatric Association (APA) and a former delegate of the American Medical Association (AMA) House of Delegates. She is a Lecturer and Adjunct Professor at the University of Illinois at Chicago. Throughout her professional career, Dr Rigaud has maintained active participation in, and contributed to International Medical Graduates (IMG) groups and organizations. She has a great interest and extensive knowledge in Global Psychiatry and is active in international health affairs. She served as President and Board Chair of the Association of Haitian Physicians Abroad (AMHE) and is a current member of the Board of Trustees.

She was elected to and served on the American Medical Association (AMA) Governing Council (GC) of International Medical Graduates (IMG) and was the IMG Delegate to the AMA House of Delegates for 4 years. She is the past president of the APA IMG Caucus and until 2014 represented IMGs on the APA Council on Minority Mental Health and Health Disparities.

After Dr Rigaud's homeland Haiti was hit by a devastating earthquake, she reached out to APA to identify and develop programs aimed at prevention and addressing mental disorders triggered or aggravated by the traumatic event. With the assistance of APA, Dr Rigaud started a working group of international mental health professionals and planned the first Haitian Mental Health Task Force. She funded and devoted her time and efforts to lead, along with mental health colleagues, in the development of Rebati Sante Mentale (rebatisantementale.org) an organization whose ultimate objectives are working with Haiti's Health Department to build the capacity of mental health services for Haitians in Haiti and in the Diaspora.

Dr. Rigaud is the recipient of several academic as well as community awards and recognition and is the recipient of the 2014 APA Profile of Courage Award.

General Information

The APA exhibits program is an integral component of the overall Annual Meeting and provides an excellent opportunity for meeting registrants to obtain the latest information on products and services related to the psychiatric profession.

The meeting would not be possible without the generous support of our exhibitors, so please allow adequate time in your daily schedule to visit the exhibits, which are located in Exhibit Halls D-E, Level 800, South Building, in the Toronto Convention Centre. When you explore the exhibits, you will have the opportunity to participate in interactive computer programs and speak with the representatives of companies who provide services and products related directly to your professional and personal interests.

To assist in locating a particular company or product, a floor plan of the Exhibit Hall is included in this section, along with:
1) alphabetical list of exhibitors with product/service description;
2) exhibitors listed by product/service; and
3) exhibitors listed numerically by booth number.

Hospitality Lounges

Two APA Cafés, serving complimentary coffee (Locations #140 and #1945) are located in the rear of the Exhibit Hall. Please utilize these areas to relax and network with colleagues. Charging stations for cell phones and laptops, as well as free Wi-Fi, are also available in each café.

Publishers' Book Fair

Major publishers and book sellers, including American Psychiatric Publishing, are located in this designated area. Participating companies are selling and taking orders for new and current professional books in the field of psychiatry.

Career Fair

Exhibitors in this area include: government agencies, hospitals, locum tenens, mental health clinics, psychiatric facilities, and recruiters seeking psychiatrists to fill open positions. Find the APA JobCentral, The Career Hub for Psychiatry, the ultimate recruitment tool for employers and job-seekers alike, located in the APA Member Center, next to the American Psychiatric Publishing Bookstore.

International Meeting Pavilion

This area in the Exhibit Hall is comprised of international organizations and associations which will be holding international meetings outside of the U.S.

Endorsements

Products and services displayed in the Exhibit Hall occur by the contractual arrangement between the American Psychiatric Association and participating companies. This arrangement does not constitute or imply an endorsement by the American Psychiatric Association of these products or services.

Exhibit Hall Food Voucher

Save money and use your $10 food voucher (attached to your meeting badge for paid attendees only) redeemable for food/beverage at the concession areas in the Exhibit Hall only. Note: There is no cash value/cash back, no replacement on vouchers, and they are for one-time use only, Sunday, May 17–Tuesday, May 19 during Exhibit Hall hours.

General Information

The Sunshine Act and How It Affects You

The Physician Payment Sunshine Act is a federal law that requires pharmaceutical and device manufacturers under certain circumstances to publicly report any complimentary gift, food, beverage, non-CME certified education or other items of value given to physicians. Some of the food, product theaters, and trinkets that may be available to you at this meeting have been sponsored by companies that may be required to report your receipt of that gift. APA recommends that you ask the person providing the complimentary item whether your name will be reported under the Act before accepting complimentary products or food so that you can make an independent and educated decision to accept or not accept it.
