

9.00 - 9.30 Breakfast in the lab

9.30 - 9.40 General presentation of BrainProducts and Clinilab

9.40 - 11.40 Products overview

- Acti64Champ (amplifier)
- Active electrodes and caps
- Sensors (temperature, GSR, etc)
- TriggerBox
- StimTrak
- EP-PreAmp
- Recorder and Analyzer software
- Gel and recording supplies

11.40 - 11.50 Break

11.50 - 12.30 Routines of EEG recording and electrode preparation

- Electrode and cap handling

12.30 - 13.30 Lunch

13.30 - 15.30 Hands-on and EEG recordings

15.30 - 16.00 Break

16.00 - 16.30 Introduction of data analysis (on recordings)

16.30 - 17.00 Additional sensors (AEP/VEP)
