CC WORKSHOP PROGRAMME

NORDEN TOP-LEVEL RESEARCH INITIATIVE

DAY 1: Utzon Centre, Det Obelske Auditorium - Slotspladsen 4, DK-9000 Aalborg, Tel.: +45 76 90 50 00

DAY 2: First Hotel Aalborg - Rendsburggade 5, DK-9000, Aalborg, Tel: +45 98 10 14 00

CLIMATE CHANGE PLANNING A DRIVER FOR SUSTAINABLE REGIONAL DEVELOPMENT : OPPORTUNITIES AND CHALLENGES

Registration: <http://aalborg-convention.dk/registration/CCW2012>

A NORDEN TOP-LEVEL INITIATIVE in *Climate Change Adaptation Research Network* is hosting a 2-day international workshop in Aalborg, Denmark, 20-21 March 2012. The focus of this workshop is on national, regional and municipal climate change adaptation strategies placed in context of sustainable regional development. Planners and researchers from Denmark, Sweden, Norway, Germany, UK and the US will share experiences and discuss the opportunities and challenges of different adaptation (and mitigation) strategies within a Nordic, European and American context. The workshop is primarily aimed at planners, decision-makers and researchers in the field of climate change planning and regional development.

All presentations will be held in English.

PARTICIPATING INSTITUTIONS:

climate change adaptation climate change mitigation sustainable development

Registration: <http://aalborg-convention.dk/registration/CCW2012>

20 March 2012

Utzon Center

08.30-09.00 Welcome, with coffee, tea and rolls, including a short introduction to the **KLIMALAB** project

09.00-09.30 Eskild Holm Nielsen (Dean, Faculty of Engineering and Science, AAU) - *Integrating the university physically and mentally in the local community in order to drive sustainable innovation and development*

09.30-10.30 Prof. Petter Næss (AAU) and Prof. Karl Georg Høyer (Oslo University College) - *Key inter-disciplinary challenges in relation to urban adaptation/resilience and sustainable development*

10.30-11.30 Prognos AG, experiences from Dynaklim - *Climate change adaptation measures as regional development drivers in the Emscher-Ruhr region*

11.30-11.45 coffee break

11.45-12.15 Klimaregion project-Region Nordjylland - *Strategies and measures for climate change mitigation and adaptation planning in North Jutland*

12.15-13.00 lunch

13.00-13.45 Aalborg Kommune - Michael Damm/Peter Balzer Nielsen - *Challenges and opportunities for integrating climate change mitigation and adaptation strategies into existing planning systems*

13.45-14.30 Sirku Juhola (Aalto University) and Michael Goodsite (Aarhus University) - *The research outlines of the NORD-STAR project, with a specific focus on recent trends in adaptation planning developments in Finland, Sweden and Denmark*

14.30-15.00 coffee break

15.00-15.45 Prof. Steven Cohen (Earth Institute, Columbia University) - *Climate planning strategies in New York City, US (to be confirmed)*

15.45-16.45 Discussion and wrap-up

contact info: Patrick DRISCOLL, Department of Development and Planning, Aalborg University / 0045 2465 4522 / patrick@plan.aau.dk

21 March 2012

First Hotel Aalborg

08.30-09.00 Welcome, with coffee, tea and rolls

09.00-10.15 Prof. Andy Gouldson, Corrado Topi and Niall Kerr (Centre for Climate Change Economics and Policy, University of Leeds) - *Climate change mitigation measures as regional development drivers: findings from the mini-Stern report in the Leeds city region*

10.15-10.30 coffee break

10.30-11.10 Prof. Stig Enemark (Department of Development and Planning, AAU) - *The climate change challenge and current adaptation measures in Denmark*

11.10-12.00 Assoc. Prof. Bernd Möller (Department of Development and Planning, AAU) - *A Danish heat atlas, or how existing public databases can be used for future energy planning in Denmark*

12.00-13.00 lunch

13.00-16.00 Martin Lehmann and Patrick Driscoll - *Roundtable discussions, exploring research linkages, synergies and opportunities between UK, Germany and Scandinavia*

(Urban Planning and Mobility group only)

13.00-14.00 UPM research group meeting

14.00-16.00 Presentation of Karl Georg Høyer to the UPM members, with an opportunity for the group members to present their research projects
