Handbook of Research on Overcoming Digital Divides: Constructing an Equitable and Competitive Information Society

Edited by: Enrico Ferro, Istituto Superiore Mario Boella, Italy; Yogesh K. Dwivedi, Swansea University, UK; J. Ramon Gil-Garcia, Centro de Investigación y Docencia Económicas, Mexico; and Michael D. Williams, Swansea University, UK

13-digit ISBN: 978-1-60566-699-0

886 pages; 2010 Copyright

Price: US \$555.00 (hardcover*)

Perpetual Access: US \$830.00

Print + Perpetual Access: US \$1,110.00

Illustrations: figures, tables (8 1/2" x 11")

Translation Rights: World

*Paperback is not available.

Recently, rapid developments in the digital divide have attracted the attention of both the academic and political worlds due to the reduction of information gaps.

The **Handbook of Research on Overcoming Digital Divides: Constructing an Equitable and Competitive Information Society** presents a comprehensive, integrative, and global view of what has been called the digital divide. Collecting an international collaboration of experts, this Handbook of Research offers policy makers, academicians, managers, and researchers a complete reference source to the interactions, evolutions, and policies developing within the field.

“This handbook contributes to the refinement of existing theories on adoption, diffusion and digital divides and the development of new frameworks to better understand the digital divide, as well as the adoption, use, and impacts of emerging technologies and their applications.”

- **Enrico Ferro, Istituto Superiore Mario Boella (ISMB), Italy**

Subject:

Human Aspects of Technology Global Information Technology; Electronic Government; IT Education; Library Science; Healthcare Information Systems; Business Information Systems

Market:

This essential publication will be invaluable to academic and research libraries as well as those interested in studying the myriad ways that the digital divide impacts our global society. A wide range of professionals including educators, policymakers, public administrators, librarians, social activists, and healthcare professionals will find this comprehensive handbook provides thoughtful and in-depth research on the latest issues and trends related to the digital divide and its widespread impact on global culture. Students and researchers in a number of fields including education, public administration, library science, global business, and healthcare administration will also benefit.

Excellent addition to your library! Recommend to your acquisitions librarian.

Handbook of Research on Overcoming Digital Divides: Constructing an Equitable and Competitive Information Society

Edited by: Enrico Ferro, Istituto Superiore Mario Boella, Italy; Yogesh K. Dwivedi, Swansea University, UK; J. Ramon Gil-Garcia, Centro de Investigación y Docencia Económicas, Mexico; and Michael D. Williams, Swansea University, UK

Table of Contents

Section I: The Digital Divide as a Social Problem

Division I: Overview of The Digital Divide

Chapter I: Beyond Digital Divide: Towards an Agenda for Change

Neil Selwyn, London Knowledge Lab, University of London, UK

Keri Facer, Manchester Metropolitan University, UK

Chapter II: The Digital Divide, Framing and Mapping The Phenomenon

Andrea Calderaro, European University Institute, Florence, Italy

Chapter III: Policy As a Bridge Across the Global Digital Divide

Meena Chary, University of South Florida, USA

Stephen Aikins, University of South Florida, USA

Division II: Regional and Country Cases

Chapter IV: The Evolution of The Digital Divide Across Developing Countries: Theoretical Issues and Empirical Investigation

Nicoletta Corrocher, Bocconi University, Italy

Anna Raineri, Bocconi University, Italy

Chapter V: Digital Divide in Turkey: a General Assessment

Mete Yildiz, Hacettepe University, Turkey

Chapter VI: Bridging The Digital Divide in Australia: The Potential Implications for The Mental Health of Young People Experiencing Marginalisation

Jane Burns, University of Melbourne and Inspire Foundation, Australia

Michelle Blanchard, University of Melbourne and Inspire Foundation, Australia

Atari Metcalf, Inspire Foundation, Australia

Chapter VII: The Digital Divide in the U.S. in the 21st Century

Barney Warf, University of Kansas, USA

Section II: Digital Divides and Inequalities

Division I: Digital Divides and Disabilities

Chapter VIII: Beyond the Digital Divide: Closing the Generation and Disability Gaps?

Seongyeon Auh, Chung-Ang University, South Korea

Stuart W. Shulman, University of Massachusetts Amherst, USA

Lisa Thrane, Wichita State University, USA

Mack Shelley, Iowa State University, USA

Chapter IX: Teleworking and the "Disability Divide"

John Bricout, University of Central Florida, USA

Paul Baker, Georgia Institute of Technology, USA

Andrew Ward, Kansas Health Institute (KHI), USA

Nathan Moon, Georgia Institute of Technology, USA

Chapter X: The Digital Divide and the Emerging Virtual Therapeutic System

Christine Barthold, University of Delaware, USA

John McNutt, University of Delaware, USA

Division II: Digital Divides, Education, Gender, and Ethnicity

Chapter XI: Generation, Education, Gender and Ethnicity in American Digital Divides

Susan C. Losh, Florida State University, USA

Chapter XII: The Digital Divides in the US: Access, Broadband, and Nature of Internet Use

Linda Jackson, Michigan State University, USA

Hiram Fitzgerald, Michigan State University, USA

Alexander Von Eye, Michigan State University, USA

Yong Zhao, Michigan State University, USA

Edward Witt, Michigan State University, USA

Chapter XIII: Does the Digital Divide Extend to Minority- and Women-Owned Small Businesses?

Robert Lerman, Urban Institute, USA

Caroline Ratcliffe, Urban Institute, USA

Harold Salzman, Rutgers University, USA

Douglas Wissoker, Urban Institute, USA

Jennifer Meagher, Brandeis University, USA

Chapter XIV: The African Diaspora, Black Identity and the Evolving Discourse of the Digital Divide

Lynette Kvasny, The Pennsylvania State University, USA

Kayla Hales, The Pennsylvania State University, USA

Division III: Digital Divides and Digital Literacy

Chapter XV: Inequalities of Digital Skills and How to Overcome Them

Jan Van Dijk, University of Twente, Netherlands

Alexander van Deursen, University of Twente, Netherlands

Chapter XVI: Late on the Curve: Causes and Consequences of Differences in Digital Skills

Jos De Haan, Erasmus University Rotterdam, Netherlands

Chapter XVII: The Digital Divide among the Incarcerated in the United States: A Case Study from New Jersey

Heather McKay, Rutgers University, USA

Patrice Morris, Rutgers University, USA

Chapter XVIII: Information Literacy and the Digital Divide: Challenging e-Exclusion in the Global South

Hopeton Dunn, University of the West Indies, Jamaica

Division IV: Digital Divides and Broadband Access

Chapter XIX: Connection Disparities: The Importance of Broadband Connections in Understanding Today's Digital Divide

Elizabeth Davison, Appalachian State University, USA

Shelia Cotten, University of Alabama - Birmingham, USA

Chapter XX: Broadband in America: a Policy of Neglect is Not Benign

Mark Cooper, Stanford Law School Center for Internet and Society, USA

Chapter XXI: Digital Divide and Rural Communities: Practical Solutions and Policies

John Garofalakis, Research Academic Computer Technology Institute, Greece

Andrea Koskeris, Research Academic Computer Technology Institute, Greece

Chapter XXII: Public Policies for Broadband Development in The European Union: New Trends for Universalisation of Services

Claudio Feijoo, Universidad Politécnica de Madrid, Spain

José Luis Gómez Barroso, Universidad Nacional de Educación a Distancia, Spain

Sergio Ramos, Redtel, Spain

David Rojo-Alonso, Universidad Politécnica de Madrid, Spain

Section III: Digital Divides, Competitiveness, and Development

Chapter XXIII: Solving the Paradoxes of the Information Technology Revolution: Productivity and Inequality

Francesco Sandulli, Universidad Complutense de Madrid, Spain

Chapter XXIV: Shifting Focus from Access to Impact: Can Computers Alleviate Poverty?

Mona Dahms, Aalborg University, Denmark

Chapter XXV: Mobiles for Development: The Case of M-Banking

Judith Mariscal, Centro de Investigación y Docencia Económicas, Mexico

Chapter XXVI: The Influence of Time on Transactional Use of the Internet: Buying, Banking, and Investing Online

Syed H. Akhter, Marquette University, USA

Section IV: Digital Divides, E-Government, and E-Democracy

Chapter XXVII: Beyond the On-line Transaction: Enhancement of Citizen Participation via the Web in Ontario Provincial Government

Brendan Burke, Suffolk University, USA

Chapter XXVIII: Accountability and Information Technology Enactment: Implications for Social Empowerment

Richard Ghere, The University of Dayton, USA

Chapter XXIX: From Inclusive Spaces to Inclusionary Texts: How E-Participation Can Help Overcome Social Exclusion

Simon Smith, University of Leeds, UK

Chapter XXX: Online Participation and Digital Divide: An Empirical Evaluation of U.S. Midwestern Municipalities

Stephen Aikins, University of South Florida, USA

Meena Chary, University of South Florida, USA

Chapter XXXI: Bridging The Gap Between Citizens and Decision-Makers: Are Icts The Appropriate Means for Reconfiguring Traditional Notions of Citizenship and Participation in Public Affairs?

Evika Karamagioli, Gov2u, Greece

Section V: Approaches to Study Digital Divides

Chapter XXXII: From The Digital Divide to Multiple Divides. Technology, Society, and New Media Skills

Francesca Comunello, Sapienza Università di Roma, Italy

Chapter XXXIII: A Human Factors View of the Digital Divide

Kayenda T. Johnson, Virginia Tech, USA

Tonya L. Smith-Jackson, Virginia Tech, USA

Chapter XXXIV: Conceptualizing a Contextual Measurement for Digital Divides: Using an Integrated Narrative

Karine Barzilai-Nahon, University of Washington, USA

Ricardo Gomez, University of Washington, USA

Rucha Ambikar, The Center for Information & Society, USA

Chapter XXXV: The Empirics of the Digital Divide: Can Duration Analysis Help?

Wei-Min Hu, Peking University HSBC School of Business, China

James Priege, Pepperdine University, USA

About the Editors:

Enrico Ferro is a contract professor at the Polytechnic of Turin where he lectures on information management and strategies in both the public and the private sector. He also covers a senior researcher position at the Mario Boella Institute (ISMB) where he is in charge of the research and policy intelligence activities of the Technology and Business Intelligence Area. Enrico Ferro has worked in a number of projects financed by the European Commission with roles ranging from scientific supervisor to senior expert. He is actively involved in the organization of a number of international academic events dealing with eGovernment and eInclusion (eGOV, DGO, HICSS).

Yogesh K. Dwivedi is a lecturer in the School of Business and Economics at Swansea University in the UK. He was awarded his MSc and PhD by Brunel University in the UK, receiving a "Highly Commended" award for his doctoral work by the European Foundation for Management and Development. His research focuses on the adoption and diffusion of ICT in organisations and in addition to authoring a book and numerous conference papers, has co-authored papers accepted for publication by journals such as *Communications of the ACM*, the *Information Systems Journal*, the *European Journal of Information Systems*, and the *Journal of the Operational Research Society*. He is Senior Editor of *DATABASE for Advances in Information Systems*, Assistant Editor of *Transforming Government: People, Process and Policy* and a member of the editorial board/review board of a number of other journals, and is a member of the Association of Information Systems, IFIP WG8.6 and the Global Institute of Flexible Systems Management (New Delhi, India).

J. Ramon Gil-Garcia is an assistant professor in the Department of Public Administration and the Director of the Data Center for Applied Research in Social Sciences at Centro de Investigación y Docencia Económicas (CIDE) (Mexico City, Mexico). Currently, he is also a research fellow at the Center for Technology in Government, University at Albany, State University of New York (SUNY) and a Faculty Affiliate at the National Center for Digital Government, University of Massachusetts Amherst. He is a former Fulbright Scholar. Dr. Gil-Garcia is the author or co-author of articles in *Government Information Quarterly*, *Journal of the American Society for Information Science and Technology*, *European Journal of Information Systems*, *The International Public Management Journal*, *Journal of Government Information*, *International Journal of Electronic Government Research*, *Public Finance and Management*, *International Journal of Cases on Electronic Commerce*, and the *International Journal of Electronic Governance*, among other academic journals. His research interests include collaborative electronic government, inter-organizational information integration, digital divide policies, adoption and implementation of emergent technologies, education policy, public policy evaluation, and multi-method research approaches.

Michael D. Williams is a professor in the School of Business and Economics at Swansea University (UK). He holds a BSc from the CNA, an MEd from the University of Cambridge, and a PhD from the University of Sheffield. He is a member of the British Computer Society and is registered as a Chartered Engineer. Prior to entering academia Professor Williams spent twelve years developing and implementing ICT systems in both public and private sectors in a variety of domains including finance, telecommunications, manufacturing, and local government, and since entering academia, has acted as consultant for both public and private organizations. He is the author of numerous fully refereed and invited papers within the ICT domain, has editorial board membership of a number of academic journals, and has obtained external research funding from sources including the European Union, the Nuffield Foundation, and the Welsh Assembly Government.
