### Message from the Guest Editors

Dear Colleagues,

Sustainable urban transformations focus on structural transition processes that foster sustainable urban development as well as (radical) economic, social, organizational, governmental and physical change processes. This Special Issue places emphasis on the interfaces and boundaries of strategic spatial planning and sustainable transitions by ‘connecting’ transition theories, urban planning theories, governance approaches, urban planning policy styles and innovative examples from practice. In so doing, the aim is to engage planners and scholars from other spatial disciplines to critically explore strategies and approaches aimed at creating sustainable cities and neighbourhoods for the future. By making use of contemporary challenges (e.g., climate change, floods, pandemics, economic crises, migration and social conflicts) as drivers for sustainable urban development, we invite authors to submit articles showcasing how innovative ideas and experiments emerge, how and why they contribute to sustainable urban transitions, and how difficult it is to implement them in practice in the long term.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many other databases.

**Journal Rank:** [JCR - Q2 \(Environmental Sciences\)](#) / [CiteScore - Q1 \(Geography, Planning and Development\)](#)
