# Planning Regional Futures

Edited by **John Harrison, Daniel Galland** and **Mark Tewdwr-Jones**

*Series: Regions and Cities*

*Planning Regional Futures* is an intellectual call to engage planners to critically explore what planning is, and should be, in how cities and regions are planned. It takes up the intellectual and practical challenge of planning regional futures, moving beyond the narrow confines of existing debate and providing a forum for debating what planning is, and should be, for in how we plan cities and regions. The chapters in this book were originally published as a special issue of the *Regional Studies*.
