<sup>1</sup> This list of reference is a raw text file only, which needs to be converted into REFWORKS, and retrieved in a standard reference format. The list of references represents a broad range of sources consulted at various levels of detail and intensity, from a partial reading of selected elements, to application in in-depth use analysis. The variety of sources is illustrative of the breath of the study area, and of the challenge of creating a foundation in a cross-disciplinary field. The list of references gives a notion of the future challenges of building a stronger bridge between property rights issues and finance in pursuit of wealth and welfare.
