1 Introduction

1.1 About the deliverable

Deliverable M28.1.4: M28.1.4: (T0+47) ERT 2007 Leadership Report
(Month 48) This milestone report provides a concluding account of the ERT activities in the period 2004 – 2008, and a special account for year 2007-2008.

(Month 48) This deliverable provides a permanent and public record of the research activities. The contract for the book has been signed and the deliverable is available in Draft form for review from November 2007 with the final first draft due in December 2007.

1.1.1 Statement on Sustainability

We are exploring ways of sustaining the work. Besides the informal ways of working using each others for committees, writing joint papers etc., we are in the process of setting up a formal framework building on multilateral MoUs between the labs. 9 labs have confirmed to sign the MoU. Further more, we work to integrate the ERT in the coming association on technology enhanced learning. Further more, we plan to continue growing in numbers of excellent european research groups dealing with networked learning (one new member in 2007) as well as plan to continuing the research in various constellations of ERT members.

1.1.2 Highlights

- integrating multiple European labs and disciplines (Human Centered Informatics, educational science, educational psychology, sociology) and disseminating their research within and outside the ERT (several joint
workshops/symposia in international conferences, paper writing and cross-cultural studies)

- *esteem factors and excellence in research*: During the four years of Kaleidoscope the ERT-members have contributed significant to the national and international research on networked learning (see appendix 3). Some of these publications have been produced direct in relation to the ERT work, while others have been produced in relations to projects in general. However, it’s not always so easy to identify in which context the publications have been produced. We bring the overview here, because it gives a view to the work the ERT-partners are doing and to their indirect and direct contributions to Kaleidoscope.

- *PhD student education*: series of joint workshops (funded by VDS and other means), lab visits and exchange of junior and senior researchers, and joint supervision of PhD students. The integration of ph.d. students into the activities. The Ph.D. students have really gained a lot from Kaleidoscope network: the international spirit of excellence in research, network of peers, network of seniors and a kind of “apprenticeship. For all ph.d.students, but especially the ones coming from overseas Kaleidoscope has been the window to European research.

- *advancement of the TEL field* with respect to networked learning and productive learning. Especially the focus on conceptualization of important issues and challenges within networked learning should be mentioned: technology as learning infrastructure, indirect design, space and place, pedagogical design, and the whole notion of networked learning. Further more the ERTs focus on meso-level analysis is a major contribution to CSCL. The joint work has been published in a number of reviewed conferences – and journals, for example the first number of the International Journal of Computer Supported Collaborative Learning, Klüver, and in the edited book: Dirckinck-Holmfeld, L., Jones, C., & Lindström, B. (Eds.). (forthcoming). Analysing networked learning
practices in higher education and continuing professional development. Rotterdam, the Netherlands: Sense Publishers.

1.2 **Delivery according to Milestones**

**M28.1.6**: (T0+37 + 47) ERT steering committee meeting (Alpine RDV, Berlin)

**M28.1.7**: (T0+37, 39, 39, 47) Executive meeting (Alpine RDV, London, Malaga, Berlin)

**M28.1.8**: (T0+39 + 47) Review III & IV (Malaga, Berlin)

All meetings have been held as foreseen

**M28.2.4**: (T0+37) Open University is integrated as partner

The Open University has been fully integrated in the ERT as a partner, leading the CSCL workshop at the Rutgers CSCL conference in July 2007 and taking a full part in the editorial work for the book, and in the development and delivery of an ERT based VDS in Skagen Denmark, November 2007.

**M28.2.6**: (T0+47) MoUs are signed

The discussions of MoU will take place at the ERT-meeting at the Berlin Symposium, and signed immediately after.

**M28.3.2**: (T0+37) workshop on Networked Learning (Alpine RDV)

The workshop recruited successfully and achieved the aims the organizers set for it in particular re-energising contributors and ensuring that the momentum behind delivering the edited book was maintained and increased.

**M28.3.3**: (T0+40 + 45) participation in the Networked Learning Conference Seminar Series - Advanced Research Seminars on Networked Learning (Workshop I and Workshop II)

ERT participants took part in both workshops (Jones and Ryberg) and they are both involved in the delivery of ERT related papers in two symposia accepted for the NL Conference to be held in Thessalonika in Greece in May 2008.
M28.3.4: (T0+43) proposal: workshop in relation to the International Conference on CSCL 2007
The workshop proposal was successful and the workshop ran in July 2007 and recruited successfully. Attendance included participants from Japan and the USA, helping to take the work of the ERT to a world audience. Chris Jones organised and ran the workshop and ERT representatives attended Jones and Engeström.

M28.3.5: (T0+47) proposal: symposium in relation to KAL international Conference 2007.
The workshop proposal was accepted and will run on the 26th November 2007. Two international discussants have agreed to participate, one from Europe, Prof Vivien Hodgson (Lancaster University, UK) and Dr Tim Koschmann from the United States (Southern Illinois University, USA). Due to private circumstances, Tim Koschmann will participate through virtual means.

Symposium organized by Jones accepted for the Conference including three ERT members, Jones, Ryberg and Bonderop-Dohn.
Paper accepted for presentation including two ERT-members: Mayela Chotto Coto, Lone Dirckinck-Holmfeld

M28.3.7: (T0+44) contribution to the Special Issue on Networked Learning in Journal of Computer Assisted Learning (JCAL). Special section organised by Jones has been accepted and is forthcoming. Papers include contributions from ERT participants Jones, and Ryberg.

M28.4.2: (T0+40) implementation and use of vLAB
The vLAB has been adjusted to support special activities in relation to the ERT. The doctoral course on networked learning (e-learning 2.0) are using the vLAB. The use will be reported in the evaluation of the course.

1.2.1 Contributions to VDS, TeLearn

A proposal for a VDS workshop on Networked Learning was accepted. The workshop takes place in Skagen, Denmark 13 – 16 November 2007. The workshop recruited successfully with attendees from across Europe. (see a full evaluation report at http://www.ell.aau.dk/VDS-seminar-Skagen.494.0.html)

M28.4.3: (T0+43) contribution to TeL Open Archive

Numbers of contributions submitted into the TeL Open Archive on networked learning (target number: 20). 37 publications to TEL archive

We have reached the goal. Moreover, we have negotiated with Sense Publisher to upload the chapters from our book. Following contributions from members of the ERT is available at TeLearn (Follow the hyperlink to read more about the publications):

2007

The Kaleidoscope Scientific Vision for Research in Technology Enhanced Learning
By Lone Dirckinck-Holmfeld, Marise Ponti, Thomas Ryberg et. al

New and changing teacher roles in higher education in a digital age By Olga Dysthe, Stig Mjelstad et. al.

2006

Developing nursing expertise in simulation-based learning environments
By Berner Lindström et.al.

1997
Making Distance Education Collaborative through Internet By Ola Berge

M28.5.4: (T0+39) Editors work meeting in London
The meeting was held in Lancaster in September 2007. Moreover editors have been meeting regularly by Skype and e-mail.

M28.5.5: (T0+44) Draft of book
Included in this deliverable. The book is progressing on time with chapters delivered and reviewed and final copy being received at the time of this deliverable. Editorial sections also in draft and to be concluded in the next month according to a timetable agreed by the editorial group and the ERT Executive.

M28.5.6: (T0+47) Book completed and submitted to an international publisher
Full first complete and final draft of the book to be completed as agreed in December 2007.
