

CROSS-DISCIPLINARITY AND NETWORKING IN HORIZON 2020

Date: October 27th, 2015

Time: 09.00-16.45

Place: Aalborg University, Niels Jernes Vej 6a, 1.20, 9220 Aalborg Øst

Do you consider writing a cross-disciplinary Horizon2020 (H2020) application, and can you use some inspiration and the right network? Then sign up for this seminar on October 27th, 2015 and get inspired and connected!

The purpose of the seminar is to prepare researchers and companies to take part in cross-disciplinary H2020 applications.

Focus will be on integrating different disciplines and to present concrete examples of collaboration on cross-disciplinary projects within different H2020 Societal Challenges, for instance SSH, Health, Climate/Environment and Security.

Additionally, the seminar will include a matchmaking session, where companies and researchers are able to meet 1:1 at pre-booked meetings and discuss common interest areas; breaking the ground for future collaborations and joint H2020 applications.

The seminar is open to all. The morning session focuses mainly on research within Social Sciences and Humanities. In the afternoon, the seminar is open to researchers and companies from all disciplines and furthermore includes the possibility to participate in the pre-registered matchmaking session.

The seminar is organised in a collaboration between AAU, North Denmark EU-Office, Enterprise Europe Network, Eurocenter and EU DK Support. Participation in the event is free of charge.

You can register for a full day participation or morning or afternoon session. Please register here <https://www.b2match.com/ssh2015>

Program (preliminary)

- 09.00: Welcome by Dean Rasmus Antoft and Dean Henrik Halkier
- 09.10: SSH in H2020 – Short introduction to H2020.
- 09.40: SSH in Horizon 2020. Representative from European Commission, DG Research and Innovation
- SSH's role in H2020
 - Impact of SSH and cross-disciplinary research
- 10.30: Coffee and networking
- 10.45: SSH experiences from cross-disciplinary collaboration in H2020
- How to approach the call/application
 - Career perspectives, CV, Networking
 - Motivation, drivers, and barriers to engage in projects
- 11.45: Lunch and networking
- 12.30: Welcome and intro to the afternoon program
- 12.35: Orientation on administrative support services for researchers and companies. North Denmark EU-Office, EU DK Support, Eurocenter, AAUs Funding and Project Office, and Enterprise Europe Network will introduce how they support researchers and companies in relation to H2020.
- 13.00: 3 parallel presentations on cross disciplinarity in H2020 Societal Challenges: Health, Climate/Environment, Security
- | Health | Climate/Environment | Security |
|--|--|--|
| Introduction to The H2020 Health topics 2016-2017 | Introduction to The H2020 Climate/Environment topics 2016-2017 | Introduction to The H2020 Security topics 2016-2017 |
| Pirkko Liisa Raudaskoski, professor, Department of Communication and Psychology | Dianne Dredge, professor, Department of Culture and Global Studies | Lars Bo Langsted Professor, Department of Law |
| Anna Marie Balling Høstgaard, Associate Professor, Department of Health Science and Technology, AAU. | Kasper Lyhn, SAFE Green Logistic | Zheng-Hua Tan, Associate Professor. Department of Electronic Systems |
| | Henrik Lund, Professor. Department of Development and Planning | |
- 14.30: Coffee and networking
- 15.00: Matchmaking: pre-register for the matchmaking and book 1:1 meetings with companies and researchers and share your common interests within Health, Climate/Environment or Security. The matchmaking session is a good opportunity for you to create new contacts and break the ground for future cooperation.
- 16.45: Thank you and good luck!
