**Subject:** SETAC Rome - abstract evaluation  
**Date:** 25 January 2018 at 18:31  
**To:** Peter Roslev pr@bio.aau.dk

RE

Dear Peter Roslev,

Congratulations! Your abstract has been accepted for the SETAC Europe 28th Annual Meeting in Rome, Italy (13 - 17 May, 2018). The Scientific Committee tried to accommodate all abstracts in the requested session and format but with 2546 abstract submissions and a limited amount of platform slots not all preferences could be respected. The final parallel programme with 81 sessions includes 572 platform presentations and 1974 poster presentations (poster, poster spotlight, poster corner).

Please read the following details about your presentation carefully:

Session title: Ecotoxicology of micro and nanoplastics: Mechanistic approaches to understand their risk for the environment and human health (P)

Presentation title: Are microplastics inhibitory to *Daphnia magna* and are they significant vectors for hydrophobic organic pollutants?

**Presentation type: Poster**

Presentation room: Exhibition hall

Presentation date: Thursday May 17th, 2018

Specific presentation times and final ID numbers will be assigned 2nd week of April!

Posters can be presented full day, platform presentations take 15 minutes each (12 minutes talk and 3 minutes Q/A). Guidelines for preparing your presentation as well as practical instructions for onsite activities will be available via the Rome Annual Meeting website (<https://rome.setac.org>) early April 2018. For posters: Also in April, you will receive your poster code, indicating where your poster should be displayed.

Please note that all presenters should register by **20 March 2018**. Online registration is now open and can be done via <https://rome.setac.org/registration/register/>. Presentations from authors not having registered by 20 March 2018 will be cancelled and excluded from the programme and abstract book!

If for some reason you have to withdraw your contribution, please inform SETAC Europe by sending an e-mail to roel.evens@setac.org as soon as possible, clearly mentioning your abstract number and title.

Book your room! SETAC negotiated a reduced rate: <https://rome.setac.org/general-info/hotels/>

If you have any questions, please visit our FAQ section on the meeting website (<https://rome.setac.org/faq>). For information on your abstract and the scientific programme, please contact Roel Evens (roel.evens@setac.org). For questions related to your registration, please contact Veerle Vandeviere (veerle.vandeviere@setac.org). For invitation letters and SETAC membership, please contact Laura Rossy (laura.rossy@setac.org).

We look forward to seeing you in Rome!

Roel Evens  
Scientific project manager  
SETAC Europe
