Research & Communication 2019

In 2019, AAU launched a new research portal. Vbn.aau.dk continues to extract its data from Pure. However, new facets have been added to the dissemination of AAU research. Research impact, equipment, awards, grants, and datasets now supplement existing features - i.e. publications, activities and press-cuttings. The new portal emphasizes both "outcome" and "output", as it displays SoMe metrics and citations for publications. As such, the new portal increases the possibilities for profiling the university, its departments, research groups and individual researchers in the future.
