Outstanding Associate Editors and Top Reviewers

By Danilo Erricolo, *Editor-in-Chief*

The IEEE TRANSACTIONS ON ANTENNAS AND PROPAGATION is one of the most influential publications of IEEE. Its scientific contributions attract a lot of interest and are among the most downloaded across all IEEE publications. In 2019, the IEEE TRANSACTIONS ON ANTENNAS AND PROPAGATION ranked 3rd out of 376 IEEE publications for total number of downloads.

The success of this journal is made possible by the excellent scientific and technical contributions from our authors and by the countless hours of service of our dedicated volunteer Editorial Board:

- 2) The more than 60 Associate Editors listed on the inside cover of each issue.
