

## Danish Open Access Week 2022 THURSDAY OCTOBER 27

### Putting researchers in control:

#### **Preprints as a versatile tool for open science (10:00-11:00)** Join on [Zoom](#)

Iratxe Puebla, ASAPbio

Pablo Ranea Robles, KU

This presentation will provide a brief introduction to preprints and the recent trends of their use in the life sciences. The presenters will discuss the benefits preprints bring to researchers and to research communication, and why preprints are a versatile tool to support open science. The presentation will also share a brief five-step guide to help researchers have a positive experience when posting a preprint.

#### **DOAJ – Directory of Open Access Journals (13:00-14:00)** Join on [Zoom](#)

Paula Marjamäki, DOAJ

What is DOAJ, and why is it important to have a Directory of Open Access Journals?

This talk will outline the basic criteria for inclusion and the application process, as well as talk about the work that goes on behind the scenes of DOAJ.
