

First Aalborg – Amsterdam Sustainable Mobility Seminar

‘Sharing ideas on transport planning research’

January 28th and 29th 2013, Amsterdam

Dear participants of the first Aalborg – Amsterdam sustainable mobility seminar,

Welcome to the first Aalborg – Amsterdam sustainable mobility seminar. The idea to have an intense exchange between our universities arose in Ankara during the latest AESOP conference in 2012. We are pleased that this idea has become reality.

During the one and a half day seminar we can talk about particularly vexing, interesting, puzzling, or otherwise intriguing research that you are working on in the field of sustainable mobility. The first day is focused on exchanging current research. The second (half) day is focused on triggering a discussion on possible future cooperation.

In this document you find information about locations and routes, participants and the program.

Kind regards,

Els Beukers (UvA)

Patrick Driscoll (AAU)

Luca Bertolini (UvA)

Locations and routes

Venue seminar

University of Amsterdam

Building REC-E, room E 1.51

Roeterstraat 11

1018 WB Amsterdam

Route description venue
