Born 1970

Summary

Thomas Graven-Nielsen received a M.Sc.EE degree within Biomedical Engineering from Aalborg University, Denmark in 1994 and acquired his PhD within Biomedical Science and Engineering in 1997 (Aalborg University). In 2006 he obtained a Doctoral degree in Medical Science (dr.med, Copenhagen University). He is Director at Center for Neuroplasticity and Pain (CNAP), SMI, Department of Health Science and Technology, Aalborg University, Denmark (since 2015), and Full Professor in Pain Neuroscience since 2008. The Danish National Research Foundation funds CNAP. Adjunct Professor at University at Western Sydney, Australia (since 2015), and Adjunct Professor at Curtin University of Technology, Perth, Australia (since 2004).

The research focuses on translational studies of musculoskeletal pain bridging the gap between basic animal findings and clinical manifestations of pain. The scope is to identify and modulate key features of human pain neuroplasticity leading to prevention of maladaptive neuroplasticity and promote advantageous neuroplasticity. Development of pain models, biomarkers, and assessment technologies are key biomedical tools for the translational studies. The core areas are muscle pain, joint pain, referred pain, localised and widespread deep-tissue hyperalgesia, pharmacological screening, and electrophysiological techniques to assess muscle pain physiology and neuroplasticity. He has published 300+ papers and reviews (260+ peer-reviewed, H-factor: 55) and received several awards. He reviews papers on a regular basis for high ranked journals, has presented as keynote speaker at several international conferences, and organised scientific workshops and symposia at international meetings. More than 10 national and international collaborations on translational pain research have been established including research groups in Sweden, UK, Japan, USA and Australia.

Qualifications (education and academic degrees)

1994	M.Sc.EE degree within Biomedical Engineering from Aalborg University
1997	Ph.D. within Biomedical Science and Engineering from Aalborg University
1999	University pedagogy (pædagogikum), Aalborg University
2006	dr.med., University of Copenhagen
2009-2010	Research management training (Copenhagen Business School)

Current and previous faculty positions

1997-1999	Assistant Professor, Center for Sensory-Motor Interaction (SMI), Department of Health Science and Technology, Aalborg University
1999-2007	Associate Professor, Center for Sensory-Motor Interaction (SMI), Department of Health Science and Technology, Aalborg University
2001-2004	Adjunct Associate Professor at Curtin University of Technology, Perth, Australia
2004-	Adjunct Professor at Curtin University of Technology, Perth, Australia
2006-	Head of the Doctoral School in Medicine, Biomedical Science and Technology, Faculty of Medicine, Aalborg University (110+ students enrolled)
2008-	Head of the Pain and Motor System Research Group (12 scientists), Center for Sensory-Motor Interaction (SMI), Aalborg University
2008-	Full Professor in Pain Neuroscience, Center for Sensory-Motor Interaction (SMI), Aalborg University
2010-	Deputy Head of Department (Research), Department of Health Science and Technology, Faculty of Medicine, Aalborg University
2015-:	Director, Center for Neuroplasticity and Pain (CNAP), SMI, Department of Health Science and Technology, Aalborg University
2015-:	Adjunct Professor at University of Western Sydney, Australia

Total scientific production

- 290+ scientific peer-reviewed papers (30% in Top-15% ranked journals within the field; 45% as first or senior author)
- Citations in total: 11000+ (Scopus, May 2019)
- H-factor for all scientific papers: 58 (Scopus, May 2019)
- Number of book chapters, proceedings and reviews: 55+
- Number of invited international lectures: 90+
- Monographs in total: 2
- Lead editor on 2 books
- Other (e.g., abstracts, proceedings) in total: 280+
- 3 patents

Research training

Extensive experience with Ph.D.-training including supervision/co-supervision of 17 conferred Ph.D. degrees and 5 on-going Ph.D. students. Chair or opponent in 25 Ph.D. assessment committees. Chair of one higher doctorate degree (dr.scient). Often served as international Ph.D. opponent at, e.g. University of Witwatersrand (South Africa), Umeå University (Sweden), Gent University (Belgium), University of Twente (The Netherlands), and University of Western Sydney (Australia). Completed supervision of 2 post-docs. Head of the International Doctoral School (150+ students enrolled) which has graduated more than 150 Ph.D. students over the last 15 years.

Presentations

Frequently (80+) invited speaker to present on biomedical engineering assessment technologies and basic mechanisms in musculoskeletal pain. Presented as keynote speaker at several international conferences and given numerous symposium presentations at national and international meetings. Moreover, has organised several scientific workshops and symposia at international meetings (e.g. International Association for the Study of Pain (IASP); European Federation of IASP Chapters). Member of scientific programme committee for international meetings. Chaired and hosted a 3-days international symposium with strong scientific impact.

Organisation of international conferences

- Chairman or co-chair for 3 Annual International Symposia on Translational Neurobiology of the Pain System (Aalborg, Denmark, two days meetings in 2009, 2010, and 2012)
- Chairman, the IASP Research Symposium: Fundamentals of Musculoskeletal Pain, 7-9 May 2007 (200 participants from Europe and 18 countries outside Europe)
- Organised several workshops at international conferences (e.g. IASP, EFIC, and the American Pain Society. Typically 200-400 participants).
- Scientific Organizing Committee, member, World MYOPAIN, Toledo, Spain, 2010
- Scientific Organizing Committee, member, the Scandinavian Association for the Study of Pain, Annual Meeting, Aalborg, Denmark, 4-7 April 2002.

Funding

Applied for and administrated grants of more than EURO 3,000,000. Co-investigator on several national and international grants from e.g. NHMRC (Australia), NIH (USA), and EU (FP6). Specific grants to pursue the international collaborations have been obtained (e.g. The Danish Agency for Science, Technology and Innovation).

International Prizes/Awards/Society memberships

The EFIC Grünenthal Grant (2007), the Queen Ingrid's Research Award (2003), The SASP Young Investigator award (2002), and other awards. Scan|Design IASP Collaborative Research Grant (2005, 2007 and 2011). The Research Award (The Danish Disability foundation, 2013). Member of The International Association for the Study of Pain, Society for Neuroscience, The American Pain Society, and The Danish Pain Society.

Editorial and scientific commitments

- Reviews papers on a regular basis for high-ranked journals (15+ per year); e.g. Pain, J Neuroscience, NeuroImage, J Pain, Eur J Pain, J Neurophysiol, J Physiol (all IP>4).
- Lead editor of one book (IASP Press).
- Editorial board member of an international peer-reviewed journal (Scand J Pain).
- Deputy-chair and board member of the Danish IASP (International Association for the Study of Pain) chapter.
- President of the Special Interest Group on Musculoskeletal pain (approx 500 members), IASP.
- Councillor in The European Federation of Chapters of the IASP.
- Served as chair and member of various task force committees in the IASP.

Patenter

Arendt-Nielsen L, Graven-Nielsen T, Opfindere. 01-09-2011. Method and device for evoking temporal pain summation. IPC nr. A61B5/103. Patentnummer WO2011103880.

Graven-Nielsen T, Arendt-Nielsen L, Opfindere. 07-05-2015. System for evaluating pain modulation, spatial and/or temporal summation of pain or descending inhibition of pain in a human. IPC nr. A61B5/00, A61B5/021, A61B5/022. Patentnummer WO2015063221.

Graven-Nielsen T, Arendt-Nielsen L, Petersen KK, Opfindere. 01-12-2016. Inflatable cuff for pain modulation or pain assessment. IPC nr. A61B 5/00 (2006.01) . Patentnummer WO/2016/189093.
