University of Birmingham (2015- 2019)
Aston Business School (2010-2013)
Overall, more than 400 students supervised since 2006.

5. Pædagogisk udvikling og forskning: Udvikling af nye kurser, undervisningsmateriale, undervisnings- og eksamensformer eller andet udviklingsarbejde. Didaktisk og pædagogisk forskning. Samarbejde med eksterne samarbejdspartnere.

Skriv dit svar her...

6. Udtalelser om undervisningskompetencer fra foresatte og kolleger. Undervisningsevalueringer og eventuelle udmærkelser for undervisningsvaretagelse.

Skriv dit svar her...

7. Evt. personlige refleksioner og initiativer: Personlige overvejelser knyttet til undervisning og vejledning, ønsker til og planer for pædagogisk videreudvikling, planer for opfølgning på undervisningsevalueringer m.v. Refleksioner over eget pædagogiske arbejde, dets målsætninger, metoder og gennemførelse. I refleksionen analyseres og motiveres dine pædagogiske aktiviteter i forhold til din pædagogiske forståelse og de studerendes læring. Tanker om undervisningsformen på Aalborg Universitet, der har et stort indhold af gruppeorganiseret projektarbejde og problembaseret læring (PBL).

Professor Mateus is the coordinator of the MSc in Finance at the Aalborg University Business School. He lectures courses at undergraduate and postgraduate (MSc and Ph.D.) levels. He has widespread experience of teaching in large classes. At Cass Business School, Mathematical Finance, the class was made up of 120-150 students; at the University of Southampton, the MSc course in International Finance had a class of 120+ students. As part of his international teaching experience in large classes, he taught the summer course in Business Finance with a class of around 300 students (2010) at the University of Melbourne.

Professor Mateus is committed to providing excellent services of a high professional standard. He supports students' learning and helps them to improve their performance. Besides the theoretical concepts, he provides students with essential research-based and practical-oriented knowledge and skills, which are important for those wishing to follow careers in areas associated with finance, as well as those wishing to pursue further research. From his courses, students can learn theories and techniques in respect of making investments, as well as their real-life applications. Moreover, he shares his research experience and provides examples based on research outcomes from recent academic papers.

As a part of his commitments, he considers it vital to support students and provide them with extra activities that might contribute towards positive decisions in terms of career choices. Since 2021 he has been the AUBS academic mentor for the CFA Institute Research Challenge. For the purpose of public engagement, outreach and knowledge exchange, he developed a close relationship with Bloomberg Education and was invited to contribute to the project, which aims to create an academic research portal and allows professionals (portfolio managers, hedge funds, analysts, central banks etc.) to access new ideas and research output from the academic world. In the long run, this research portal is expected to be viewed as a bridge between academic and market users.

Dr. Mateus is committed to treating students with fairness, respect, tolerance, and understanding, regardless of sex, ethnic origin, religion, disability, age, and sexual orientation. During lectures, he is open to students' questions, and after class, he is always happy to provide additional guidance or suggest extra learning material for better academic progression. To track students' learning, development, and success, he uses in-class tests prior to exams, interim reports as part of final coursework assessments, and offer a revision seminar at the end of each course.

8. Andet.
