

Teaching portfolio

1. Teaching CV: A list of any lecturing and supervision tasks, including specification of academic fields, scope, level (bachelor, master, continuing education, PhD) as well as any external examiner tasks.

Extensive teaching experience covering all aspects of molecular biology, genetics and molecular pathogenesis of psychiatric diseases. I have been responsible for a number of courses at bachelor and master levels. I teach courses and supervise projects that are strictly relevant to my own research (course in Genetics at 4th semester Bachelor in Medicine with Industrial Specialization), but I am also involved in teaching that is far less attached to my research projects (case teaching in neurology, reproduction and pathology).

My teaching at Aalborg University is mostly done through high qualifications in Problem Based Learning (PBL) including:

1. Extensive case teaching at the Bachelor of Medicine and Medicine with Industrial Specialization.
2. Supervisor of 20+ student projects at Bachelor of Medicine with Industrial Specialization.
3. Supervisor of 20+ student projects at Master of Medicine with Industrial Specialization.

I have supervised 10+ master of biomedical science projects and 2 PhD students.

2. Study administration: A list of any study administration tasks, e.g. study board membership, head of studies or semester or course coordinator, accreditation, etc.

I have been involved in the revision of curriculum for medical education.

I am responsible for a PhD program in Biomedicine.

I am module coordinator on the 4th semester MeDIS (Advanced Biochemistry and Genetics)

I was semester coordinator on the 1st semester MeDIS Master.

I was a member of study board for Medicine

3. University pedagogy qualifications: A list of any completed courses in university pedagogy, PBL courses, workshops, academic development projects, collegial guidance and supervision, etc.
