**implementation. This should include an analysis and a reasoned description of your pedagogical activities in relation to your pedagogical understanding and student learning. Thoughts on the teaching method at Aalborg University (which is largely based on group-organised project work and problem-based learning)**

In my teaching I facilitate discussions and encourage students to speak up and to use their own vocabulary to explain problematic topics. This will help them to better understand and remember useful knowledge. I am always available for questions and discussions and ready to provide constructive feedback on projects and experimental laboratory work to strengthen the students learning outcome.
