7. Personal reflections and initiatives: Here you may state any personal deliberations as regards teaching and supervision, any wishes and plans for further pedagogic development, plans for following up on feedback/evaluations from students, etc.

My background as supervisor is anchored in 13 years of project management, within humanitarian aid and development and my PhD having focus on:

- Network based innovation;
- Business model;
- Facilitation of complex partnerships.

My supervision approach is very informal based on an active listener approach aiming to support the students academic development.

As a supervisor I expect that the students:

- Take responsibility of their own studies;
- A dedicated effort;
- Meet the agreed dead lines;
- Are well prepared to all meetings and submit relevant documents 2 days prior to the meeting.
