6. Teaching awards you may have received or been nominated for.

2016: Teacher of the Year (Economics and Business Administration) 2020: Teacher of the Year (Economics and Business Administration) nomination

7. Personal reflections and initiatives: Here you may state any personal deliberations as regards teaching and supervision, any wishes and plans for further pedagogic development, plans for following up on feedback/evaluations from students, etc.

I strive to make even more integration with business cases and real-life companies to be an integral part of my courses. This gives tremendous value added for the students and surrounding companies. I will spend more effort in the time to come in enhancing my qualifications in corporate finance and mergers and acquisitions. This is a field of keen interest to me, and often integrated into the domain of strategy, organization and innovation management. I see digital tools and methodologies for increasing blended learning and flipped classrooms as a continuous development process of a high priority. I ally myself with some great colleagues that set excellent examples of new ways of teaching, and regularly engage in dialogue with colleagues on how we can improve our teaching activities together.

8. Any other information or comments.
